

2B-LAW

Legal Software Simplified

2B-LAW is a simple to use, web-based software solution that will replace time-consuming, manual processes with new point-and-click automation. Simplify your practice and case management by enabling legal professionals and administrators to work securely and collaborate from any device, anytime.

Legal professionals today face many technological challenges. 2B-LAW harnesses revolutionary developments in cloud computing to offer enterprise-grade solutions that help enhance productivity and better track time and expenses by giving legal professionals the ability to work securely and collaborate seamlessly from any device, anytime.

Helping legal professionals reach a new level of productivity

Efficient Case Management and Client Service

Secure and centralized system to manage all case activity from the initial phone call through the closing of the case. Emails, documents, quotes, expenses, billable hours and more are easily accessible so attorneys and administrative staff alike can serve clients and manage cases faster and better than ever before.

Real-time Visibility Across the Firm

Built-in reporting, analytics and dashboards are just a click away and provide real-time intelligence. Managing partners can quickly monitor and view a wide range of information, such as attorney activity, cash flow, expenditures vs. revenue, profitability by practice area, and much more.

Less Paperwork with More Organization

Gone are the days of sorting through and storing piles of paper and stacks of files. Electronic document management has resulted in a more organized and productive office that's a lot cleaner, too.

Automated Time and Expense Tracking

Busy attorneys can access the cloud-based CRM system on the fly, making it fast and easy to enter time and expenses. Customized screens enable them to categorize each expense to a specific case, practice area or jurisdiction, and they can add any important case notes right away.

Accurate Billing and Financial Management

Improve your firm's financial management substantially with access to real-time billing and payment information. Cash flow is more controlled and you can manage the firm's escrow accounts and bank transfers more efficiently. No need for the administrative staff to track down attorneys for time and expenses!

Anytime Access to Critical Client and Case Information

Access case notes, documents, and more from anywhere using the FREE mobile app. Quickly enter expenses and time while instantly associating them to the appropriate case.
