Inventory Management

Catalog all materials (permanent and consumable) with quantities and barcodes. Create a Reorder Report to determine what materials need to be ordered based on upcoming needs. This simplifies ordering and receiving of materials purchased

Training Management

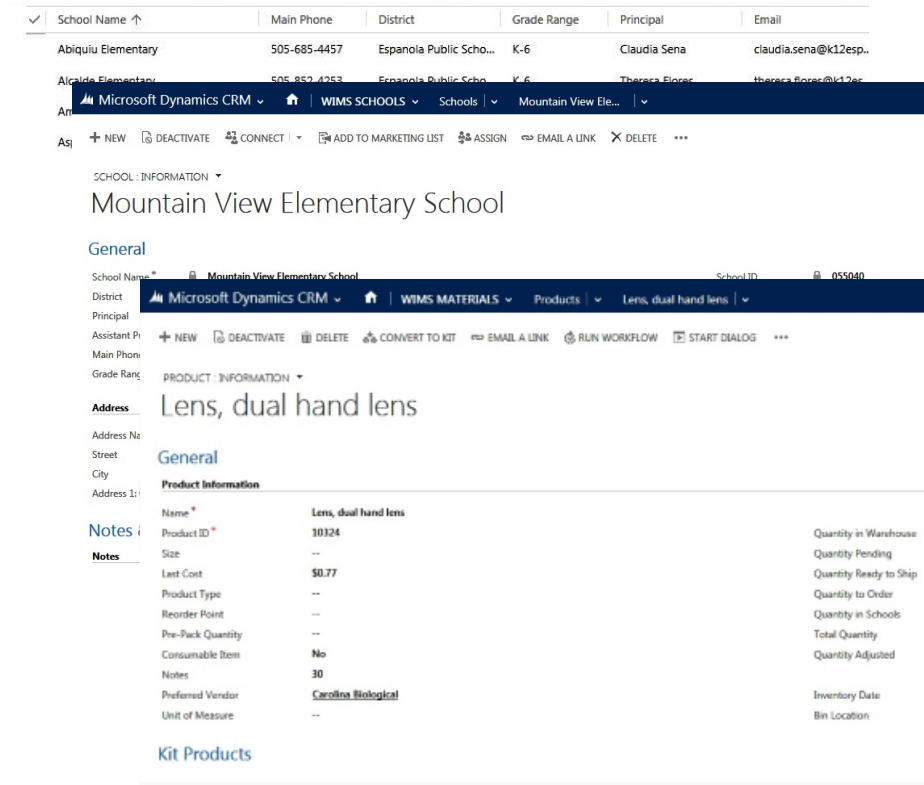

Track Schools, Teachers, and Kit Certifications with an easy to use online tracking tool. Track training events effectively by setting up online registration page and tracking registrations in real time. This will maintain historical record of training completed per teacher

Kit Refurbishment

Streamline refurbishment process and maintain real-time inventory counts by scanning only items that are missing. Use the built in automated email to notify teachers of missing items

Kit Transfer In/Transfer Out

Quick and accurate method to assign Kits to Teachers while maintaining accountability and visibility of issued Kits. Workflows automate creation of Teacher and Kit barcode tags

WIMS Tub Packing List – Base Kit
Kit: Solids & Liquids Tote: 02

You have one week to report any missing/damaged items. You will be held responsible for returning all of the materials below.
