Simplify your matter and client management by enabling legal professionals and administrators to work securely and collaborate from any device, anytime. Built on Microsoft Dynamics 365, 2B-LAW 365 is a simple to use, cloud-hosted legal management solution that will replace time-consuming, manual processes with new point-and-click automation.

- **Matter Management** – View and update matter information from a single screen.
- **Client Management** – Track a potential client from the first point of contact.
- **Prospect Tracking** – Don't let referrals fall through the cracks.
- **Time & Expense Tracking** - Busy attorneys can access 2B-LAW 365 on the fly, making it fast and easy to enter time and expenses.
- **Financial Management** - Improve your firm's financial management substantially with access to real-time billing and payment information.
- **Document Management** - Electronic document management has resulted in a more organized and productive office.
- **1-Click Document Generation** - Instantly create contracts, letters, invoices, motions and more by using your own pre-defined templates.
- **Custom Dashboards and Reports** – Customizable for each user. Only see those reports you need.
- **Automatic Reminders and Tasks** – Set up automatic reminders and tasks. Never miss another deadline.
- **Client Facing Portal** – Keep in contact with clients, including sending and receiving documents.
- **Customizable attorney hour and revenue goal tracking** – Track billed time and profitability.
